Career Objective

I am a website developer that aspires to be someone who always wants to do the right thing and do things well. I also want to have a steady employment, acquire additional skills, and increase my productivity at work. Working alone is one of my skills, and I can distribute extremely effectively with coworkers.

Education

ASSOCIATE BACHELOR OF INFORMATION TECHNOLOGY - INDUSTRIAL UNIVERSITY OF HO CHI MINH CITY (IUH)
 PHP + MY SQL + PHP(OOP MVC + ZEND FRAMEWORK2) - Computer science center VNUHCM-University Of Science

Hobbies

- Packpacking, Fishing
- Game, Movies, Gardeners

Work Experience

WEB DEVELOPER 08/2021 - Now

Xenia.tech

Key Responsibilities & Achievements:

- **Cross-Border Collaboration:** Functioned in a **Hybrid work model**, collaborating daily with cross-functional teams in the **UK and Vietnam** to deliver high-quality web solutions under global standards.
- **Next.js & Headless Development:** Developed and optimized scalable web applications using **Next.js (App Router)**, **TypeScript**, and **Tailwind CSS**. Built modern frontends that consume data from various backends via APIs.
- **Full-Stack CMS Management:** * Designed and maintained complex **WordPress CMS** architectures, focusing on custom theme development and plugin optimization.
 - Managed and upgraded legacy systems using **PHP** and **Drupal**, ensuring security patches and feature enhancements were implemented without downtime.
- **Performance Engineering:** Led initiatives to optimize websites for **PageSpeed Insights**, consistently achieving scores of **90+**. Focused on Core Web Vitals, image optimization, and efficient code-splitting to enhance user experience and SEO.
- **System Upgrades & Maintenance:** Proactively audited the company's existing web portfolio to add new features and refactor outdated code, ensuring high availability and scalability.
- **Technical Stack & Workflow:** Utilized **Git** for version control in a CI/CD environment, ensuring seamless integration between development, staging, and production branches.

Technical Skills Highlight

- **Languages & Frameworks:** PHP, TypeScript, JavaScript, Next.js, React.
- **CMS Platforms:** WordPress (Expert), Drupal (Basic/Maintenance), Headless CMS.
- **Styling & UI:** Tailwind CSS, GSAP & Framer Motion Animations, Responsive Design (Pixel Perfect).
- **Tools & DevOps:** Git, AWS (S3/CloudFront), Docker, PageSpeed Insights.

WEB DEVELOPER 08/2020 - 07/2021

Amberstone Media

- **System Integration:** Developed custom WordPress plugins to automate data synchronization between **WooCommerce** and CRM platforms (**Gety, Misa**), ensuring seamless order and customer management.
- **API & Data Management:** Built and optimized **REST APIs** using **Laravel** and **PHP** to handle complex data flows and **MySQL** database operations.
- **Frontend Development:** Created interactive and responsive web interfaces using **ReactJS, JavaScript, and jQuery**.
- **Global Collaboration:** Successfully operated in a **Hybrid/Remote** model, collaborating with cross-functional teams in the **AU and Vietnam** to meet project deadlines during COVID-19.
- **Version Control:** Managed source code and collaborated through **Git**, maintaining clean and deployable codebases for e-commerce solutions.

WEB DEVELOPER 07/2017 - 07/2020

Bonseyjaden

- **Full-Stack Development:** Developed and upgraded robust web applications using **WordPress, Laravel 5, and Shopify (Liquid)**, ensuring high security and scalability.

- **Design-to-Code:** Collaborated closely with designers to translate **Figma, Adobe XD, and PSD** mockups into high-fidelity, pixel-perfect web interfaces using **ReactJS, Bootstrap** and **jQuery**.
- **Performance Optimization:** Conducted technical troubleshooting and performance tuning to optimize application speed and infrastructure reliability.
- **Custom Integration:** Engineered custom **REST APIs** and managed **MySQL** databases to support complex site functionalities and third-party integrations.
- **Agile Workflow:** Maintained clean, version-controlled codebases using **Git** to ensure seamless team collaboration and project delivery.

WEB DEVELOPER

11/2015 - 10/2016

Mat Bao Corporation

- **Theme Framework Development:** Architected and maintained a standardized **WordPress theme repository**, enabling efficient and scalable website deployment across the organization.
- **Plugin & Extension Engineering:** Designed and developed custom **WordPress plugins** and functional extensions to enhance CMS capabilities and user experience.
- **API & Payment Integration:** Successfully integrated complex **Partner APIs** and various **Payment Gateways** to support diverse business requirements and secure transactions.
- **E-commerce Optimization:** Researched and implemented advanced functional solutions for **WooCommerce**, focusing on checkout flow optimization and high-volume data handling.
- **Performance R&D:** Conducted deep research into source code optimization techniques, proposing and implementing technical solutions to improve overall website speed and server-side performance.

WEB DEVELOPER

11/2014 - 11/2015

Eforce

- Convert PSD to WordPress.
- Create add-ons, modules, and plugins for platforms like WordPress, Joomla, and Zend Framework 2.
- Optimize website performance to ensure faster page load times.
- Support and optimize SEO for company websites.
- Manage hosting and databases for the websites of the company's partners.
